I cant seem to find the place to edit the transaction. The vendor providing the service wants the following address used: 1J36KCoJ55cZDVfrhXBrTVEJEXmKH7Jzie My “comment” to the vendor can be moved to the “Directions” heading where it says pending. Can these be done? Thanks

I am sorry there is no way to change the success wallet or any other details after the bitcoin escrow has been started. This is because, some people could change the success wallet or other details after escrow has been started, breaking the deal. For example: Person A wants to sell a gun to person B. The success wallet is set, refund wallet is set. If person A doesnt get the gun, person A gets funds back If person A receive the gun, person B gets funds But if person A is able to change the success wallet, then success wallet can become a wallet of person A When deal is completed, person A receives funds that are needed to be sent to person B This is why, nothing can be changed after escrow has been started If you are not happy with the escrow details, please start new escrow transaction This escrow transaction can be canceled, and the funds will be received back to you within 15 to 30 days

Ok. The funds will be sent back to the address you provided, and the transaction is being canceled. The seller is being notified by this request. The processing time is 15-30 days. This is to avoid situations where the transaction is being canceled without the seller being aware of what is happening.
